Governor of Telangana inaugurates LVPEI's Lahoti Eye Centre at Kondapur

27 January 2026 | News

With dedicated Outpatient Departments for Cataract, Cornea, Glaucoma, Oculoplasty & Cosmetic Eyelid Care

L V Prasad Eye Institute (LVPEI) has announced the inauguration of its Lahoti Eye Centre at Pranava Vaishnaoi Business Park, Kondapur. The new facility, designed with patient experience and care at its core, was inaugurated by Jishnu Dev Varma, Governor of Telangana.

Set in a bigger space, with enhanced facilities, the Lahoti Eye Centre delivers comprehensive eye care with the same level of excellence and trust, expected of L V Prasad Eye Institute.

Key Highlights of the Lahoti Eye Centre, Pranava Vaishnaoi Business Park, Kondapur:

- Dedicated Outpatient Departments (OPDs) for Cataract, Cornea, Glaucoma, Oculoplasty & Cosmetic Eyelid Care (including Botox and fillers), Retina, Pediatric Eye Care, and Contact Lens Services
- Spacious layout optimised for improved patient flow
- Superior accessibility and ample parking
- Inclusive, safe, and patient-friendly premises

Speaking at the inauguration, Jishnu Dev Varma, Honorable Governor of Telangana, said, "Telangana and Hyderabad are proud of L V Prasad Eye Institute for its groundbreaking research, outstanding eye care and for making eye health accessible to all, irrespective of the complexity of care needed or ability to pay."

Dr G N Rao, Founder Chairman, LVPEI said, "Our objective is to take quality eye-care services to patients who need them the most. As the city continues to expand and distances grow, it is not feasible for everyone to travel to Banjara Hills. To address this challenge, we have established satellite centres to bring care closer to communities. This is our fourth satellite centre, and we will continue to identify and expand into areas where there is a genuine need. Currently, we provide services across Telangana, Andhra Pradesh, and Odisha, with a focused effort to reach even the remotest regions of these states."

Dr Prashant Garg, Executive Chairman - LVPEI, added, "Currently, we operate four tertiary care centres located in Vijayawada, Visakhapatnam, Cuddapah, and Bhubaneswar. Annually, we serve close to 2.4 million outpatients and have patients coming from across the country. To extend our reach beyond Telangana, Andhra Pradesh, and Odisha, we have embraced technological innovation through tele-ophthalmology, branded as ConnectCare, developed in-house by our team."
