STAR Hospitals Hyderabad expands presence to West Bengal

13 April 2026 | News

Launches Information Centre and Air Ambulance Services in Kolkata

STAR Hospitals Hyderabad, a pioneer in advanced tertiary healthcare in India, has announced the inauguration of its first Information Centre and Air Ambulance Services in Ballygunge, Kolkata.

Located on Ballygunge Circular Road, this facility marks a significant milestone in bringing world-class medical expertise and seamless patient support to the people of West Bengal.

The move comes in response to the growing number of patients traveling from Kolkata to Hyderabad for specialised treatments. The new centre aims to bridge the geographical gap, providing local support, streamlined follow-up care, and direct connectivity to STAR Hospitals' renowned specialists.

"Our mission has always been to provide excellence in patient outcomes. By establishing this centre in Ballygunge, we are ensuring that the people of Kolkata have a direct, local gateway to world-class medical experts, making the journey from diagnosis to recovery much smoother." Dr Rahul Medakkar, Chief Executive Officer, STAR Hospitals Group, Hyderabad.

"With an experience of over 5,000 liver transplants and a 95% success rate, our team is committed to bringing advanced life-saving procedures, including multi-organ transplants, ABO- incompatible transplants and complex robotic liver surgeries closer to the patients who need them most in Kolkata." Dr Mettu Srinivas Reddy - Director & Lead Surgeon, STAR Centre for Advanced Liver Care & Transplantation, STAR Hospitals Hyderabad.

"Precision is key in oncology. Through this centre, we aim to provide patients in Kolkata access to the latest in cancer care - from robotic surgeries to advanced therapies like CAR-T cell - ensuring they receive a comprehensive second opinion and a clear treatment roadmap." Dr. Vipin Goel, Sr. Consultant & Head, Surgical Oncology (Robotic Surgeon), STAR Hospitals Hyderabad.

Liver diseases often require timely diagnosis and continuity of care. With this Information Centre in Kolkata, we are creating a strong support system for patients - right from early evaluation to post-transplant follow-ups - ensuring they receive expert hepatology care without delays." Dr. Ramu Chimakurthi, Senior Consultant in Hepatology & Liver Transplantation, STAR Hospitals Hyderabad.
