Healthium Medtech appoints Gaurav Goel as CEO and MD

05 August 2026 | News

Goel joins Healthium with more than two decades of global leadership experience

Healthium Medtech has announced the appointment of Gaurav Goel as Chief Executive Officer (CEO) and Managing Director (MD), effective August 1, 2026, following the recent elevation of Anish Bafna transitioning to the role of Non-Executive Chairman.

Goel joins Healthium with more than two decades of global leadership experience, with the last 11 years in the global medtech industry.

Prior to joining Healthium, he served as Chief Commercial Officer at a leading global medical device company with a presence spanning more than 75 countries, and where he held global commercial responsibility and played a key role in expanding the company's international footprint through both organic growth and strategic acquisitions.

Goel’s appointment comes as Healthium enters its next phase of growth. In recent years, the company has expanded its presence to nearly 100 countries globally and significantly enhanced its offering and capabilities through strategic acquisitions, including AbGel, CareNow, VitalCare and, most recently, Paramount Surgimed.

As Anish Bafna transitions into his new role as Non-Executive Chairman, he will continue contributing to Healthium's strategic direction while supporting the leadership team.
