Kinder Hospitals Group announces transition of Bengaluru facility to Manipal Health Enterprises

20 August 2026 | News

Kinder Hospitals Group will accelerate its expansion footprint across South India

Kinder Hospitals Group has announced that Kindorama Healthcare Private Limited has entered into a Business Transfer Agreement (BTA) with Manipal Health Enterprises Limited for the transfer of operations of Kinder Women’s Hospital, Bengaluru.

Commissioned in 2022, the 100-bed facility has established itself as a trusted center for specialised women’s healthcare services. Upon completion of the transaction, the Bengaluru centre will join the Manipal Hospitals network, one of India’s leading healthcare providers.

The transaction is expected to close within 90 days, subject to customary closing conditions and required statutory approvals.

Commenting on the development, Dr V. K. Pradeep Kumar, Chairman, Kinder Hospitals Group, said, "This strategic step allows us to concentrate our resources on aggressive expansion across Kerala, alongside underserved regions in rural Karnataka, Andhra Pradesh, Telangana, and Tamil Nadu."

Post-transition, Kinder Hospitals Group will accelerate its expansion footprint across South India, reinforcing its mission of delivering accessible and compassionate healthcare.
