Kaisha Pharma establishes Kaisha Pharma International in Italy

10 September 2026 | News

Andrea Zambon appointed Managing Director of Kaisha Pharma International and Global Head of International Business Development

Following the recent launch of Kaisha Pharma, the founders have taken the next strategic step in advancing their global customer-centric vision with the establishment of Kaisha Pharma International in Italy.

Kaisha Pharma International has been established as the company's global business development and customer support hub, dedicated to spearheading strategic customer outreach, market interface and business development across overseas markets.

From its base in Italy, the company will manage customer relationships and ensure customer support for its global pharmaceutical and biotechnology customers across the Americas, Europe, Middle East and Africa (EMEA), Asia-Pacific, and other key international markets.

The company also announced the appointment of Andrea Zambon as Managing Director of Kaisha Pharma International and Global Head of International Business Development.

Andrea Zambon brings extensive international leadership experience within the pharmaceutical packaging industry and specialised drug delivery sector and will be responsible for orchestrating Kaisha Pharma's worldwide business development strategy, strengthening customer relationships, expanding the company's international presence and supporting its long-term international growth objectives.

"The establishment of Kaisha Pharma International marks another important milestone in our journey. When we launched Kaisha Pharma, our vision was clear: to build a truly Global pharmaceutical packaging company. Today's announcement demonstrates that our commitment is already becoming a reality.", said Kairus Dadachanji, Managing Director of Kaisha Pharma.

The establishment of Kaisha Pharma International follows the recent announcement of an initial €45 million capital deployment in Kaisha Pharma, as part of a multi-million-euro long-term investment programme, which is supporting the company's global expansion strategy, advanced manufacturing capabilities, technology partnerships and the introduction of next-generation pharmaceutical packaging solutions.
