Eppendorf India celebrates 10th anniversary

Eppendorf India, a leading life science company that develops and sells instruments, consumables, and services for liquid-, sample-, and cell handling in laboratories has completed 10 years of direct operation in India. The company noted that there are no special discounts in connection to anniversary celebrations and it will be launching new products time to time.

Launched in the year 2003 in the month of April, what started as a small organization with 23 people, is now grown to a company with 135 employees, and revenue in excess of Rs 100 crore. Today it has branch offices in nine locations and satellite operations in various cities in order to reach customers nationwide.

In the last 10 years, the company has achieved few milestones. Adding feather to its cap is the Pipette Calibration Centre in Chennai which received ISO 17025:2005 accreditation from National Accreditation Board for Testing and Calibration Laboratories (NABL). To cater to the needs of customers at their doorstep, the company has launched Pipette Calibration on Call (PCoC), a mobile pipette calibration facility.

Take this opportunity to thank all the customers, distributors, suppliers, media and employees for their support during last 10 years, Mr V Sankaranarayanan, CEO, Eppendorf India, said, "We expect continued support in the years to come!"

Eppendorf products are broadly used in academic and commercial research laboratories, e.g., in companies from the pharmaceutical and biotechnological as well as the chemical and food industries. They are also aimed at clinical and environmental analysis laboratories, forensics, and at industrial laboratories performing process analysis, production, and quality assurance.
