Trivitron Healthcare bags Make in India award

Chennai: Trivitron Healthcare received the Make in India award for excellence in the medical device manufacturing category. The award ceremony was organized by Krazy Mantra IT Pvt. Ltd at Mahatama Mandir, Gandhi Nagar, Gujarat, on August 18, 2015. The award was given by Cabinet Minister Kalraj Mishra.

The company claims that among 50 companies like Google Business group, Haier, Tata Tele Services Ltd and many more, Trivitron was nominated and honored the award for excellence in manufacturing medical devices. Trivitron's mission is to innovate and provide medical technology products, services and solutions to make healthcare affordable and accessible.

The founder and Managing director of Trivitron Healthcare Dr. GSK Velu said, "We are honored to receive the prestigious award. Trivitron is the largest medical technology company of Indian origin and will continue to churn out innovative inventions to challenge existing paradigms of medical technology and build scalable, affordable solutions that can be accessed by populations of all socio - economic strata around the world."

Headquartered in Chennai, India, Trivitron Healthcare manufactures medical devices across in-vitro diagnostics (IVD), new born screening, imaging/radiology products, intensive care and OT products that are approved by US FDA and CE. This year, Trivitron Healthcare is focusing on the importance and awareness of women and child healthcare diagnosis.
