Sakra, Dabur to provide healthcare services

Sakra World Hospital has joined hands with Dabur Group to support its initiative HealthCare At Home (HCAH). It will now offer personalised care at patient's home, by trained healthcare professionals helping them in saving time, travel and also providing greater convenience to them and their families.

Sakra HCAH services will include laboratory investigations and home visits of doctors, nurses, nutritionists, physiotherapists.

Sakra HCAH will not only provide value to the patients post-discharge, but also to anyone who needs healthcare assistance at home due to any type of medical concern. "We believe in giving complete care to the patients, including care beyond hospital, so that patients can have healthier, happier and hassle-free life," said Dr Raajiv Singhal, Group CEO, Sakra World Hospital, in a statement.

"This partnership with Sakra will act as a game changer in the treatment, offerings & standards in the home healthcare services in Bangalore at large. With well-equipped infrastructure, trained resources and technology platforms we will ensure patient care in the comfort of your home," says, Dr Gareth Jones, chairman, Health Care at Home, India.
