F&S honors Attune Technologies

The six-year-old organization is a healthcare IT product company that delivers an integrated cloud-based system for healthcare delivery organizations.

The award was presented to Mr Arvind Kumar, founder and CEO and Dr Anand Gnannaraj, co-founder and chief medical officer at the 7th Annual India Healthcare Excellence Awards 2015 held on October 9, 2015 in Mumbai.

Attune Technologies currently offers cloud-based solutions to over 150 hospitals, laboratories, and clinics in India and worldwide and manages more than 8 million patient records on cloud.

The platform provides hospitals, labs, and clinics with integrated services like management of patient data, scheduling and billing, and workflow on the cloud.
