

Tech Solutions CSO

10 October 2011 | News

The business objective of any BioIT company is to support the pharma companies, which are under tremendous pressure due to rising R&D costs, drying of product pipeline and regulatory hurdles. Companies, such as Strand Life Sciences and CellWorks, have

been working towards meeting this aim.

In this issue of CSO series, we focus on the contributions of [Dr Kalyanasundaram Subramanian, CSO, Strand Life Sciences](#), and [Dr Shireen Vali, CSO, CellWorks](#), towards development of technology-based solutions to enable drug discovery R&D, improve productivity and success rate of the process, reduce costs, increase efficiency, and identify potential side-effects.
