HCG and BACC team-up to form Milann fertility centre

HealthCare Global Enterprises (HCG) has partnered with the Bangalore Assisted Conception Centre (BACC), and has taken a majority stake in the company to create Milann - The Fertility Centre.

Details of the stake holding into creation of Milann were not disclosed.

HCG which is a focused cancer care major has now entered into infertility treatment space as part of its inorganic growth plan. BACC, operates four fertility centres across Bengaluru and these facilities will now come under the umbrella of Milann.

"We are delighted to partner with one of the country's most accomplished fertility specialists, who has contributed immensely in the field of infertility treatment . We will build upon this expertise to help establish the nation's leading fertility care provider," said Dr BS Ajaikumar, chairman and CEO of HCG.

According to Dr Kamini A Rao, fertility specialist and medical director, Milann, since HCG has been successful in creating a unique nationwide network of cancer care that makes the latest technology and the best expertise available to all. We look forward to joining hands with HCG to realize our dream of making the best practices in fertility care available and accessible across India.
