Fax	+91-22-28746621
Website	www.themismedicare.com

Themis Medicare achieved a total turnover of Rs 90 crore for the year ended March 31, 2010 as against Rs. 97.7 crores for the previous corresponding year. Themis Medicare is a joint venture pharmaceutical company, with Gedeon Richter Limited,

Hungary. The company in over three decades, has made its presence felt in manufacturing and marketing of formulations and APIs of synthetic and biotech origin. Though their first breakthrough product was Vitamin B12, Themis moved on to manufacture synthetic APIs such as ethambutol hydrochloride, pyriithoxine derivatives, methylcobalamin, propofol and artemisinin derivatives.

Themis Medicare made its presence felt in the biotech market when in 2004 it merged with Artemis Biotech. Artemis Biotech is involved in biotechnology and fermentation activity. In the same year, Themis had obtained COS for lovastatin and simvastatin which enabled them to sell these statins in Europe. Lovastatin and Simvastatin today hold a significant share of exports of the company.

Start-up Year	1986
Biotech Revenue	Rs 90 crore
Address	Venkateshwara House, SN 114/A/2, Pune-Sinhagad Rd, Pune-411030
Tel	+91-20-24251530
Fax	+91-20-24251077
Website	www.venkys.com

Venkateshwara Hatcheries, a part of the Pune-based VH group, posted a revenue of Rs 90 crore for the financial year 2009-2010. As the first company to embark on a process of developing the industry on scientific lines, Venkateshwara Hatcheries occupies a special place in the Indian poultry scene. It pioneered the concept of parent franchisee operations, popularized cage farming, and introduced for the first time in India, the concept of inactivated vaccines and combination vaccines. The company has poultry operations in Maharashtra, Madhya Pradesh and the southern states of India. Included in its portfolio are new technology driven businesses like the egg powder plant in Hyderabad, a 100 percent export oriented unit, and wind energy farms on the outskirts of Coimbatore.

The VH Group is entering Europe with a state-of-the-art poultry vaccine manufacturing facility in Bassecourt, Switzerland. According to B Venkateshwara Rao, Managing Director of the VH Group, if the approval process goes according to company's plan, the Swiss facility will be operational by the end of 2011, and it will produce poultry vaccines for the European, Asian and other regulated markets.
