Eppendorf launches new Benchtop Centrifuge

Eppendorf launches a new 4-liter benchtop, Centrifuge 5920 R that delivers extraordinary high capacity in a very compact and ergonomic product design.

It has similar dimensions as competing refrigerated 3 Litre models and yet features a superior capacity of up to 4 x 1,000 mL; thus making it the ideal instrument for high-throughput applications. It features a powerful state-of-the-art refrigeration system with advanced temperature management to keep your samples safe.

Eppendorf is a leading life science company that develops and sells instruments, consumables, and services for liquid handling, sample handling, and cell handling in laboratories worldwide.
