Suven Life secures three Product Patents in Europe and Eurasia

Suven Life Sciences Ltd (Suven) announces today that the grant of one (1) product patent from Europe (2507225) and two (2) product patents from Eurasia (023293 and 023260) corresponding to the New Chemical Entities (NCEs) for the treatment of disorders associated with Neurodegenerative diseases and these Patents are valid through 2029, 2030 and 2031 respectively.

The granted claims of the patents are from the mechanism of action include the class of selective 5-HT₄ compounds, Alpha4Beta2 and H3 Inverse agonist compounds and are being developed as therapeutic agents and are useful in the treatment of cognitive impairment associated with neurodegenerative disorders like Alzheimer's disease, Attention deficient hyperactivity disorder (ADHD), Huntington's disease, Major Depressive disorder (MDD), Parkinson and Schizophrenia.

With these new patents, Suven has a total of twenty one (21) granted patents from Europe and Nineteen (19) granted patents from Eurasia. These granted patents are exclusive intellectual property of Suven and are achieved through the internal discovery research efforts. Products out of these inventions may be out-licensed at various phases of clinical development like at Phase-I or Phase-II.

"We are very pleased by the grant of these patents to Suven for our pipeline of molecules in CNS arena that are being developed for cognitive disorders with high unmet medical need with huge market potential globally" says Mr Venkat Jasti, CEO of Suven.
