Commenting on the company's performance, Mr Shyam S Bhartia, chairman and managing director and Mr Hari S Bhartia, co-chairman and managing director, Jubilant Life Sciences said, "Performance of the quarter was affected due to extended plant shut-down in CMO business to address USDFA issues. These operations have now normalized, and along with new product introductions and strategic initiatives, should deliver strong performance in our Pharmaceutical operations. In Lifescience ingredients, we witnessed growth across all businesses aided by price and volume gains. We are confident that we have laid the foundation for a strong performance in the remaining quarters of the year."

Jubilant LS has completed the consolidation of all its pharmaceutical business under Jubilant Pharma, Singapore with effect from 1st July, 2014. This has been financed by a US\$ 147.5m funding from IFC, which includes US\$87.5m long term loan, US \$60m of zero coupon optionally convertible loan and a further loan of US \$52.5m to be syndicated by IFC.

The company expects strong growth momentum in coming quarters, led by its Pharmaceuticals segment. This growth in pharmaceuticals will be driven by new products and new markets, expanding volumes in CMO operations and revenue increase in Radiopharmaceuticals. Life Science Ingredients should continue its robust performance on account of higher capacity utilization, better pricing of key products and expansion into new mark.
