Fourth edition of Health 2.0 India Conference to be held in ISB

06 September 2017 | News

Fourth edition of Health 2.0 India Conference to be held in ISB The meet will have talks/ presentations by about 30 speakers with 20 live demos on advanced technologies from the healthcare industry.

The fourth edition of Health 2.0 India conference will be held at the Indian School of Business (ISB) Hyderabad campus here on November 10.

The theme of the conference is ‘Highlighting Innovation and Enabling Growth in the Indian Healthcare Ecosystem’ with a focus on showcasing cutting-edge innovations that are transforming healthcare.

The meet will have talks/ presentations by about 30 speakers with 20 live demos on advanced technologies from the healthcare industry.

Health 2.0 is working closely with ISB’s Max Institute of Healthcare Management in curating the conference panel.

"The Max Healthcare Institute and faculty at ISB are working on developing deep insights that can help improve health systems in India and the region. Early findings from these studies across a range of settings and disease conditions, highlight the critical role of digital technology in expanding healthcare access in a cost-effective manner,'' said Sarang Deo, Executive Director, Max Institute, ISB.
