Vital Strategies appoints LM Singh as MD, India

24 November 2021 | News

Singh will also be the Global Head, Partnerships and Innovative Finance of the company

Vital Strategies has appointed LM Singh as Managing Director, India and Global Head, Partnerships and Innovative Finance. As Managing Director, ingh will work to bring together public and private sectors to collaborate and develop novel models of financing mechanisms to support solutions to address key public health challenges.

LM Singh, MD, Vital Strategies, India said, "I look forward to our continued collaboration with the government and other stakeholders in the healthcare ecosystem to drive scalable and sustainable solutions to issues like urban health, tobacco use and non-communicable disease prevention."

In his new role as Managing Director India and Global Head, Partnerships and Innovative Finance, Singh will oversee the financial, human, and operational functions of the India office, provide thought leadership, ensure financial viability and overall sustainability of the organisation, and co-create innovative solutions to India's public health challenges. He will also focus on developing and sustaining partnerships with the government, the private sector, and the public sector to advance the mission of Vital Strategies.
