Gurjit Singh joins StanPlus as COO

03 May 2022 | News

Singh will be leading the business, operations, P&L, and Growth Strategy for StanPlus

StanPlus has appointed Gurjit Singh as Chief Operating Officer and Founding Member at the company, to build organisation capability for scalability. Singh joins from Alvarez & Marsal, and has operational leadership experience in the healthcare delivery and consulting industry. Singh will strengthen StanPlus's mission to provide quality and timely response technologies during medical emergencies across the country.

Singh previously has led multiple operational leadership roles during his 16-year career in the healthcare delivery and consulting industry across India, South Africa, the Middle East and Southeast Asia. During his professional tenure, he has worked across varied roles leading organisations, businesses and, operations amongst others, in tertiary and secondary care hospital chains like Fortis, Nova, and Sakra.

At StanPlus, Singh will be responsible for leading the growth, business, quality, and operations to build and position StanPlus as a tech-lead clinical services organisation playing an active role in saving lives.
