Johnson & Johnson Medtech India appoints Anuj Virmani as Managing Director

25 July 2023 | News

With an exceptional track record of 28 years in the industry

Johnson & Johnson Private Limited has announced the appointment of Anuj Virmani as the Managing Director for its Johnson & Johnson MedTech India division. With an exceptional track record of 28 years in the industry, Virmani brings extensive healthcare experience and a strategic patient-centric vision to lead the company's operations and expand reach in the tier II & III cities of the country.

With a Masters in Management Studies from BITS Pilani, Virmani has been associated with Johnson & Johnson since 1995. His extensive experience includes a stint as the Chief Financial Officer for the Middle East, Central Europe, Russia, Turkey, and Africa within the EMEA MedTech division.

His expertise in General Management, Marketing, Finance, and New Business Development has fuelled successful initiatives such as developing specialties like Bariatric, Thoracic, and Colorectal, in addition to enhancing standards of care and optimizing patient pathways.

His priorities as the Managing Director of Johnson & Johnson MedTech India encompass ethical leadership, nurturing talent, and reinforcing the organization’s vision of empowering 1.4 billion lives of Indians.
