Paras Health elevates Vineet Aggarwal to Group Chief Operating Officer

25 February 2025 | News

Bringing extensive experience and strong leadership to his new role

Paras Health, based in Gurugram, has announced the elevation of Vineet Aggarwal to Group Chief Operating Officer (GCOO), effective immediately. Previously serving as Chief Information Officer (CIO), he brings extensive experience and strong leadership to his new role.

Since joining Paras Health in September 2021, Aggarwal has demonstrated exceptional leadership and played a crucial role in driving key operational and strategic initiatives across various departments. His innovative approach to digital transformation, patient engagement, and business process optimization has significantly contributed to the company's growth.

Aggarwal has consistently demonstrated visionary leadership in spearheading key initiatives that have driven both operational excellence and enhanced organizational outcomes. His strategic and visionary approach to leadership has been instrumental in advancing the company's broader goals and fosters a culture of innovation, collaboration, and continuous improvement, positioning the organization for long-term success.

With over 22 years of experience in industries such as Healthcare, Pharma, Manufacturing, Media & Entertainment, Telecom, and IT/ITES, Aggarwal brings a wealth of knowledge and expertise to the Group COO role. His ability to align business strategy with operational needs, combined with his collaborative approach, will be instrumental as Paras Health continues to evolve and expand.
