Aster Institute of Advanced Orthopedics & Robotic Surgery opens in Bengaluru

16 June 2025 | News

To perform many complex orthopedic surgeries, using state-of-the-art Cori Surgical System

Bengaluru-based Aster RV Hospital has recently launched their world class Aster Institute of Advanced Orthopedics & Robotic Surgery (AIAORS).

The institute leverages cutting edge robotic technology, along with world class specialists to perform minimally invasive and accurate orthopedic procedures. The institute was inaugurated by CP Yogeshwar - MLA & MP Shayam Shetty, President, RV Trustees. The launch event saw more than 250 people attend.

The department is headed by Dr JV Srinivas, Lead & Senior Consultant, Orthopedic & Joint Surgery, Aster RV Hospital and can perform many complex orthopedic surgeries, using their state-of-the-art Cori Surgical System. The robotic system helps with knee replacements, hip replacements and revision knee replacement surgeries as well.

The institute provides treatments for people with knee degradations, hip injuries, foot and ankle injuries, sports injuries, spine surgeries, advanced orthopedic procedures like GFC/PRP and stem cell therapy, pediatric orthopedics and Robotic Knee Replacement Surgery for accurate positioning of implants.

The institute also provides services such as trauma / fracture surgeries and management of open fractures, Joint Replacement surgeries of knee and hip (TKR and THR), Ortho Onco Surgery, Hand Surgery Limb Reconstruction Surgery, Keyhole surgeries such as Arthroscopic Ligament Reconstruction (ACL, PCL and Multi-ligament), meniscus and chondral surgeries, A fusion of joints (Arthrodesis), Polytrauma Management, Complex pelvic and acetabular fracture, and Pediatric orthopaedic surgeries for clubfoot, congenital hip dysplasia, bone and joint infection management.
