Neuberg Pulse marks entry into Tripura with first state-of-the-art lab in Dharmanagar

09 October 2025 | News

To invest over Rs 20 crore to start diagnostics facilities across Tripura in the next 2 years

Neuberg Pulse Diagnostics, one of India's fastest-growing diagnostic chains, has announced the launch of its first diagnostic laboratory in Agartala and Dharmanagar, North Tripura District.

Neuberg Diagnostics entered into a joint venture with Kolkata-based Pulse Diagnostics to strengthen its footprint across the eastern region, including West Bengal, Odisha, Bihar, Jharkhand, and the North Eastern states.

The launch is a milestone for healthcare in North Tripura, as Neuberg Pulse becomes the first national diagnostics company to establish a lab in the district. Until now, patients often faced delays, with even routine samples traveling over 150 km to Agartala for processing. The new 1500 sq ft facility in Dharmanagar addresses this challenge, ensuring faster, more reliable test results and improving access to timely care for the community.

The laboratory is equipped with latest technology to conduct a wide variety of routine and specialized tests and is capable of processing more than 2,000 samples per day. The state-of-the-art centre provides over 6,000 tests across routine and super-specialty tests under one roof, including ultrasound and ECG, Echo, TMT, PFT, Genomics, Proteomics among others. Additional services include home sample collection across, health check-up packages, personalised genomics, digital smart reports, and consultation support. By maintaining global quality standards and delivering results within defined turnaround times, Neuberg Pulse aims to bridge the diagnostic gap for the people of Dharmanagar and surrounding areas.

Neuberg Pulse already has a presence in Agartala through its partnership with Primecare Hospital, and the new Dharmanagar lab Neuberg Pulse aims to bridge the diagnostic gap for the people of Dhramanagar and surrounding areas, which include North Tripura & Unakoti Districts of Tripura, Karimgunj & Halaikandi Districts of Assam.
