CitiusTech appoints Dhaval Shah as Chief Business Officer - MedTech & Life Sciences

13 March 2026 | News

Dhaval Shah is a distinguished healthcare industry executive with over 26 years of experience

CitiusTech, a leading provider of healthcare technology services driving digital and AI excellence, has appointed Dhaval Shah to Chief Business Officer - MedTech & Life Sciences.

Dhaval Shah is a distinguished healthcare industry executive with over 26 years of experience across HealthTech, imaging ISVs, providers, life sciences, and medical device companies. In his role as Chief Business Officer, Shah will lead enterprise market strategy, strengthen client partnerships, and accelerate business performance across CitiusTech's Medical Technology and Life Sciences segments.

A founding employee of CitiusTech, Shah has played a significant role in the company's growth and evolution during his more than 19 years with the organization. He oversees a substantial portion of the business and leads relationships with more than 50 MedTech and Life Sciences clients. As a member of the CitiusTech Executive Council, the company's six-member executive management team, Shah contributes to shaping CitiusTech's strategic direction.

Prior to joining CitiusTech, Shah founded a boutique healthcare consulting firm and held senior roles serving large healthcare providers and healthcare technology organizations. He holds both a bachelor's and a master's degree in biomedical engineering from Wright State University, which support his technical expertise and deep understanding of healthcare technology.
