MSD appoints Vidhya Sundaram as Associate Vice President, Global Technology Centers and Hyderabad Tech Center Lead

28 September 2026 | News

Her appointment follows the recent inauguration of the Tech Center's expanded workplace in Hyderabad

MSD (tradename of Merck & Co., Inc., Rahway, N.J., USA) has announced the appointment of Vidhya Sundaram as Associate Vice President, Global Technology Centers and Hyderabad Tech Center Lead. She will be based in Hyderabad, Telangana.

In this role, Vidhya will oversee MSD's global Technology Center strategy, working closely with global technology leaders to deepen collaboration across locations and support business outcomes.

She will also lead the Hyderabad Tech Center, building on its strong foundation and helping advance the digital capabilities that support MSD's work to deliver innovative solutions for human and animal health around the world.

Her appointment follows the recent inauguration of the Tech Center's expanded workplace in Hyderabad, which adds capacity for local teams to contribute to enterprise technology solutions and collaborate with colleagues globally.

Vidhya brings more than 20 years of experience building and scaling global capability organizations and driving business outcomes through digital and technology across the life sciences industry. She has a strong track record of establishing multifunctional capabilities, developing talent and delivering measurable business value at scale.

Prior to joining MSD, Vidhya held leadership roles at Eli Lilly, ZS Associates and EY.
