Cotecna Group acquires Energon Labs to strengthen global pharma testing capabilities

17 October 2026 | News

Addition of Energon further complements Cotecna's growing pharmaceutical testing network

Cotecna, a leading provider of Testing, Inspection and Certification (TIC) services, has announced the acquisition of Energon Labs, a cGMP-compliant, USFDA-inspected, ISO 9001:2015 and ISO 17025:2017 certified analytical testing laboratory based in Hyderabad.

The acquisition strengthens Cotecna's global Life Sciences platform and expands its pharmaceutical testing capabilities across the Pharmaceutical, Biopharmaceutical, Medical Device and Packaging sectors.

Strategically located in Hyderabad, one of the world's leading pharmaceutical and biotechnology hubs, Energon provides Cotecna with access to highly specialised scientific talent, advanced laboratory infrastructure and a well-established pharmaceutical ecosystem. India is also one of the world's fastest-growing pharmaceutical markets and a critical manufacturing hub for global healthcare supply chains.

The acquisition enhances Cotecna's ability to support both Indian and international customers with high-quality, regulatory-compliant testing services while delivering greater responsiveness, scalability and operational efficiency across key markets.

The addition of Energon further complements Cotecna's growing pharmaceutical testing network which includes Cotecna Life Sciences, Shiva Analyticals and Neutron Pharma. Together, these capabilities strengthen the Group's ability to support customers throughout the product lifecycle and address evolving global quality, compliance and regulatory requirements.

Energon offers a comprehensive portfolio of analytical testing and quality assurance services, including analytical method development and validation, stability studies, impurity profiling, extractables and leachables, glass delamination studies, peptides and oligonucleotide characterisation, raw material and finished product testing, in-vitro binding studies, packaging compatibility studies, and regulatory support services. These capabilities will further strengthen Cotecna's position as a trusted partner to pharmaceutical manufacturers serving regulated markets worldwide.
